ABOUT US

Ujjala products is a young dynamic Indian company, manufacturer & exporter of Scaffolding, Formwork, Steel Clamps, Sheet Metal Components, Fencing Items, Threaded Bars, Hardware Items & Hand tools. Our team has always embraced the excellence and quality of technology in manufacturing engineering goods on the international level for years. We gear our product policy constantly to meet the standards set out by our customers and build lasting relationships with them.

The main advantage of **Ujjala Products** is all In-house manufacturing facility and its highly qualified and experienced professional staff and long tradition in the foreign trade. We have our own in-house advanced Hot Dip Galvanized Plant as well.

Our organization is engaged in offering a wide range of Garden fencing and Form work products that are manufactured by highly qualified engineers using high grade raw material. Our products range is durable and is used in all over the world and is appreciated in the market.

UJJALA PRODUCTS, a well managed business for serving wide range of its customers spread all across the globe.

Our mission & priority...

- To deliver the goods exactly as per instructions of the customer.
- To make faster delivery to the customer.
- To provide the new products and packaging for increasing the range of our prestigious clients.
- To provide the required information to the customer immediately after the receipt of any query. Because Export-Import business growth is based on accurate and fast information.
- To make any development as per the requirement of the customer's drawing and specifications.

Our endeavors are focused on customer satisfaction. To achieve this, continuous efforts are made towards excellence in all aspects. Customer needs are anticipated and regular brainstorming generates new ideas to meet market demands.

We look forward for RFQ'S and will be pleased to receive list of components with required specifications in order to meet your expectations ensuring quality products and on time delivery.

QUALITY POLICY

All our products are manufactured under stringent quality control methods. Quality has become integrated with the company culture and the quality system used is in compliance with the best standards in the world. Our expert technicians monitor the production process to ensure high quality international standards. We use the best quality raw material and adopt strict quality control methods, supervised by a team of most educated and technically qualified inspectors at all stages of manufacturing right to the final product.

Ujjala Products undertakes to remain as the symbol of providing the best quality. Satisfaction is guaranteed to our customers through best quality control perfect way of dealing.

Ujjala Products provide secure quality products by observing standard work practices, and through constant training and education of our working professionals.

Our team at **Ujjala Products** committed to build a high level of customer's confidence by adding value to customer satisfaction. Continuous improvement with effective training in all fields & proper implementation of Quality Management System to supply Quality Products that can exactly meet customer's requirements with cost effectiveness to build up long term mutually beneficial relationship with customers to ensure best manufacturing activities so as to better/reduce our customer's cost

QUALITY HIGHLIGHTS

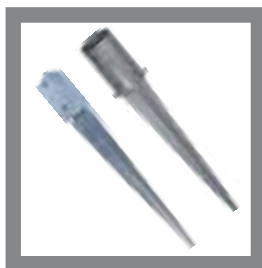

In - House manufacturing facilities & material testing facilities available regular improving & maintaining the operating efficiency of the entire process State-of-the-art- Infrastructure periodic review of Quality System to improve its effectiveness to develop new components as per need of customers.

OUR CERTIFICATE

The manufacturing facility of the company has acquired ISO 9001:2015 Certification from one of the leading quality registrar, Guardian Assessment Pvt. Ltd. with the certificate No. 2007110910101. ISO 9001:2015 is an ISO technical specification aiming to the development of a quality management system, that provides for continual improvement.

Our team is working to get the environment certificate **ISO 14001** is the International Standard for Environmental Management Systems.
